

EDUCATION

BSc in Mathematics, University of Tehran

[2021 – 2025]

CERTIFICATION & COURSEWORK

- **LPIC-2:** Linux Professional Institute Certified Level 2 (Equivalent Knowledge)
- **LPIC-1:** Linux Professional Institute Certified Level 1 (Equivalent Knowledge)
- **CEH:** Certified Ethical Hacker (In Progress)

TECHNICAL SKILLS

- **Backend Development:** Python, FastAPI, SQLAlchemy.
- **Databases:** PostgreSQL.
- **Infrastructure & OS:** Linux (RHEL/Debian/Arch), systemd, Networking, Bash.
- **Developer Tools:** Vim, Git, Docker, Kubernetes, $\LaTeX$.
- **Domain Knowledge:** Mathematical Cryptography, CTF Methodologies, Database.

PROJECTS

- **ATM Simulator** [Nov 2021 – Dec 2021]
 - Developed a Tkinter Python GUI for core financial simulation mechanics.
 - Integrated SQLite backend to persist account states, transfers, and balances.
 - Refactored legacy codebase to implement strict Poetry dependency management.
- **Weiner's Attack on RSA** [Aug 2022 – Sep 2022]
 - Implemented Wiener's attack using elementary number theory tools and continued fraction expansions.
 - Analyzed RSA vulnerabilities under low private exponent conditions and formulated mathematical countermeasures.

RELEVANT ACADEMIC COURSES

- [Introduction to Mathematical Cryptography](#), Introduction to Cryptography.

EXTRACURRICULAR ACTIVITIES

- **Quera Security Hackathon (Certificate)** [Apr 2023]
 - Competed in a security-focused hackathon hosted by **Quera**.
 - Focused on cryptographic problem-solving and Linux-based challenges.
- **CTF Competitor** [2022 – Present]
 - Competed in various CTFs, specializing in cryptographic challenges.

ONLINE PORTFOLIO

- GitHub: github.com/aliztty
 - Project source code and coursework repository.
- Portfolio: aliztty.github.io
 - Notes and writeups on detailed projects and courses.

LANGUAGES

- **Persian** (Native), **English** (Fluent)
